 - Goathead Frac Adapters
- Repair and Remanufacturing Support
- Procurement
- QA / QC Functions
- Field Service Technicians
- Crane Truck
- Assembly and Testing Operations
- R&D Projects
- Customer Property Management
- Asset Control-Tracking Functions

ALL COMPONENTS ARE MANUFACTURED AND CERTIFIED TO API STANDARDS:

- API 6A - 20th Edition
- Product Specification Level 1-4
- PR 1 / PR 2
- Material Class AA-HH
- Temperature Class P-U

AFTERMARKET SERVICES

During a well stimulation operation, gate valves and other specialized pressure containing components are routinely subjected to high-pressure, high flow-rates, operational throttling and extremely abrasive well bore media. Prolonged operation in a harsh environment normally results in excessive wear and tear, as well as costly post stimulation repair charges.

Performance Wellhead & Frac Components is committed to maintaining to the highest quality standards. **To ensure quality and minimize costly repair charges, Performance Wellhead & Frac Components developed and implemented the PAM™ Process (Predictable Asset Maintenance)**. The PAM Process is a 15 point, documented maintenance process that is performed on every piece of equipment, after every job. Visual and dimensional inspections are performed on all pressure containing components and sealing surfaces to ensure consistent quality and safe operation. In the event of damaged hard goods, the damages and abnormal wear and tear are digitally cataloged and provided to the customer as required.

CENTRAL DISTRIBUTION AND REMANUFACTURING FACILITY

The 46,000 sq. ft. central distribution and aftermarket services facility in Kilgore, Texas serves as a hub to key activity areas in North, South and East Texas, and North and Central Louisiana. The facility houses numerous support functions that ensure high-quality, dependable, safe products and on-time deliveries to the distribution facilities. This full-service, repair and remanufacturing facility offers a wide range of products and services, and serves as the primary supplier of wellhead and gate valve equipment company wide.

WE ENSURE CLIENT SATISFACTION BY PROVIDING:

- Highest Quality Standards
- Exceptional Working Knowledge (All OEM Gate Valves)
- Large Inventory of Replacement Components (All OEM)
- Quick Turnaround (5-7 Days)
- Talented and Skilled Workforce

CUSTOMER SERVICE AND SUPPORT

- Strategically Located Distribution Facilities
- In-House Engineering Services
- 24/7 Service Technicians
- 30-Ton Crane Truck
